

FOR SALE

Sashiko machine with a hand stitch look for quilting

Used only once to create the quilted sampler in the photo collection. Decided to go deeper into embroidery with the Solaris. No use for this beautiful machine now. It is just like new with no wear and tear. From a smoke free home. Pick up or meet locally. Find it new at your local sewing shop for \$2,400 or thereabouts. This model has been discontinued. You can still get it serviced though. Selling for 1500.00 or make a reasonable offer.
